

KLEEN UP well cleaning surfactant

Simplifies rig and equipment cleanup under multiple operational scenarios

Applications

- Rig and equipment wash or degreaser when using nonaqueous muds
- Cuttings wash solution (2 to 3% v/v solution) when using nonaqueous muds
- Oil-in-water emulsifier and minor oil spill treatment
- Cleaning solution for wood, plastic, and metal surfaces

How it works

KLEEN UP* well cleaning surfactant is a blend of anionic and nonionic surfactants with a variety of uses ranging from general rig and engine cleanup to specialized cuttings wash solutions for nonaqueous muds. The multipurpose product is especially effective as a rig wash for general cleaning when using nonaqueous mud. KLEEN UP surfactant is a heavy-duty, low-sudsing detergent and degreaser, making tough cleanup jobs easier. It is effective in freshwater and seawater.

Physical Properties

Physical appearance	Clear yellow liquid
Odor	Ammoniacal odor
pH, 1% solution	8.6
Specific gravity	1.00 to 1.05 sg
